

Science and Technology

A small group of Year 8 students took part in a Science and Technology competition at Shrewsbury College on the 7th July. They completed a series of challenges including:

- making a small (6 inch) moving vehicle and competing in a time challenge
- programming a robot to simulate a robotic lawnmower
- investigating crimes and making a police style E fit of a suspect
using diagnostic tests to identify a medical condition and learning how to perform CPR

Great Maths work by year 8 pupils this term. Mrs Guthrie was so impressed with all the pupils. Keep up that fabulous work .

Year 8 pupils receiving their Gold, Silver and Bronze awards and badges from the Junior Mathematical Challenge 2025 (UK Maths Trust) 🏆 🥈 🥉 🌟 🧡

Attendance Rewards

A super couple of days for our students receiving their attendance rewards.

121 of our students enjoyed their ice lolly reward. Recognising the students that just missed 100% attendance and for the students that have significantly improved their attendance.

Completing our attendance recognition rewards with a wonderful trip to 'It's only a Sundaes' in Ellesmere for our students that have achieved 100% for the academic year. Glorious day to celebrate their achievement and fabulous to see our students laughing and joking and enjoying their afternoon. With a significant increase in numbers meaning the café was closed to the public as it was at capacity with Lakeland Academy students.

Students Performing & Excelling in Out of school Activities

Tom won the gold medal in both the 100m and 200m competing against other schools in North Shropshire.

Tom in Year 10 represented Lakelands Academy at the Shropshire Schools Athletics Championship in Telford and won the silver medal in the U17 200m. Tom was selected to recently represent Shropshire Schools in the 200m at the Mason Trophy event held at the Northwood Athletics stadium in Stoke present the Shropshire Schools Athletics team.

Two of our year 7 pupils represented Lakelands Academy at the Shropshire Swimming Gala in Telford. Competing in 100m in front and back crawl and 200m Individual Medley (Butterfly, backstroke, breast stroke and freestyle) Huge well done to both.

Euan B in year 7 has been participating in the WADOS production 'You are Special'. This play tells the story of the Wemmicks, little wooden people who are made by Eli the wood carver. Well done Euan, it is lovely to see our young people contributing to events within the community.

Summer Music Festival

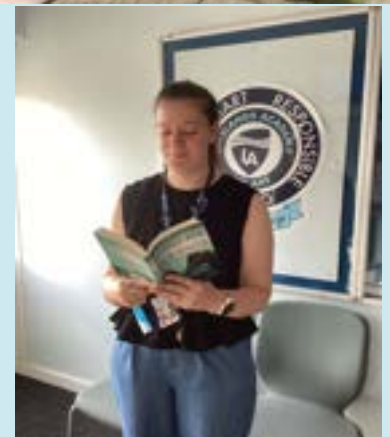

Although we had to change our plans and host the Summer Festival indoors this year, Lake-lands students did not disappoint! Well done to everyone who performed and organised games and thank you to everyone who came to support.

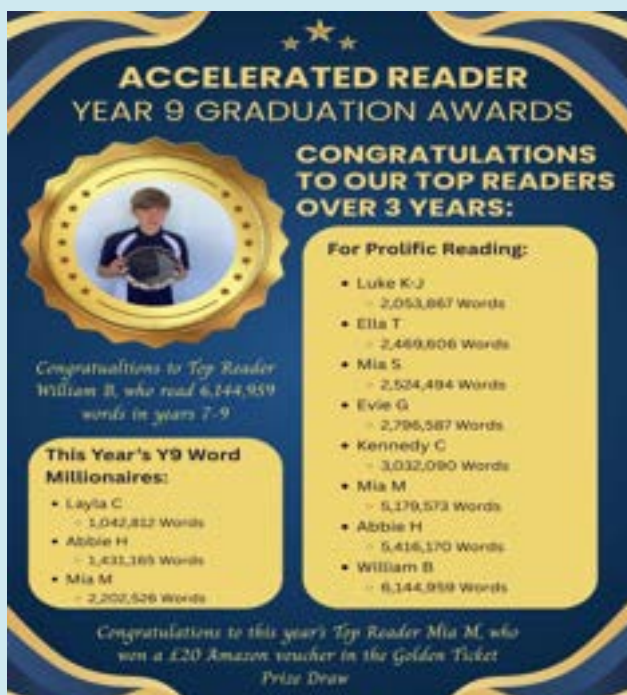

Students enjoyed a sunny reading picnic as part of our Readathon week celebrations. It was lovely to share books, poems and snacks together in the sunshine!

A huge Congratulations to the following students for their fabulous efforts and dedication.

Thank you to all the students who brought in books to swap at our Big Book Swap event yesterday! Lots of students brought in books to swap, and it was great to see them going away with stacks of new reading material to keep them busy over the summer holidays.

World War 2 Church Service

Our wonderful students have helped put together an exhibition based on their World War 2 studies. During the service, students will also talk about a recent get together with the five 'veterans' who told them about their personal experience of living through the war. It was a pleasure to welcome them here.

The initiative, involving the Royal British Legion had been featured on BBC Shropshire Breakfast.

Cricket Tournament ...the boys were fantastic and a credit to the school. We played some excellent schools including Haberdasher Adams, Priory,

Year 7 and 8 girls who competed at the North Shropshire Rounders Tournament All of the girls were a credit to themselves and Lake-lands. Year 7s did particularly well, winning all of the games in their group before narrowly losing out in the semi-final to Thomas Adams.

We played Oswestry school, Corbet and Thomas Adams B in the group stages. We won all 3 games. Then progressed straight to the final where we played Thomas Adams A team. We beat them comfortably as well. So as a result of them winning the tournament, we are now through to the

Year 9 mixed touch rugby team playing some quality rugby against some top opposition from across the North West

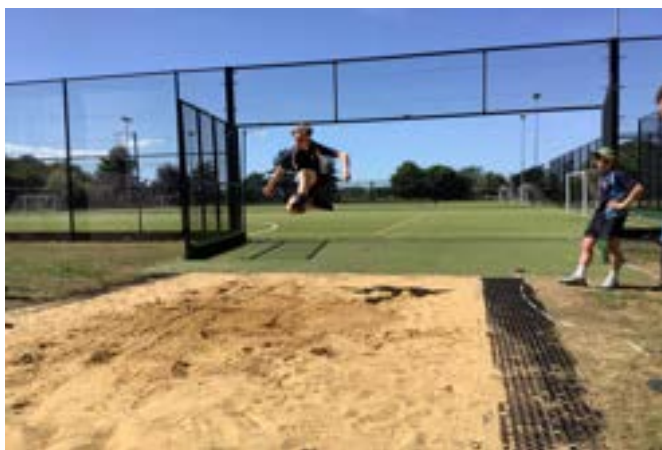

Sports Day

The sun was certainly out for us on Sports Day this year, but luckily our spectators had plenty of natural shade to sit and observe the sheer resilience and determination of our competitors who gave their absolute all for their tutor groups and house teams! The atmosphere was amazing and the students personified the Lakelands values of kindness and responsibility in cheering everyone on and getting them to the finish line.

The afternoon events were also highly impressive, with a number of students surprising themselves with their performance on the day. Lots of house points awarded, medals presented, but most importantly, lots of smiling faces!

Well done Lakelands, a fantastic finish to another positive year.

What a wonderful day we all had.
Super proud of all the pupil's who took part.
